The following is an examiner's statement of reasons for allowance: EP'314 newly cited by applicants is too diffuse to render instant compounds obvious. Corresponding final products that are pyrrolo[2,3-c]pyridines have substitution at the 5-position corresponding to instant R3 which is always H and not the disubstitution required herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
